## **EXAMINER'S COMMENTS**

### ***Response to Amendments***

1. In view of the amendments filed 4/26/2004, the objections to the claims and the rejections to the claims under 35 U.S.C. § 112 are hereby withdrawn.

### ***Response to Arguments***

2. Applicant's arguments filed 4/26/2004 and made in the interview of 4/23/2004 regarding the prior art failing to disclose a non-rotatable slide bar have been fully considered and are persuasive.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a carton gripper apparatus with first pair of clamp bars slidable along a first slide rod, a second pair of clamp bars slidable along a second slide rod, bearing openings in the clamp bars to permit sliding of the clamp bars along their respective slide rod, the slide rods being held in a non-rotatable position.

The most pertinent prior art, GOLDBERG ET AL, discloses a single pair of slide bars that move along a rotating, threaded slide rod rather than a non-rotatable slide rod, as claimed in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
